

FOR MASAJID AND MADRASAH LEADERSHIP

Quran in the morning. Ontario curriculum in the afternoon.

A Grade 1 to 8 academic program that runs inside your madrasah on Toronto Global Academy's platform, at each child's pace with teacher support, without you running a school.

Presented by Mirza-Zain Baig, Partner

Grades 1 to 8, with a pathway into TGA's Ministry inspected high school

Parents are asking you for something you were never set up to give.

Your Quran and hifdh program is strong. Then a parent asks the question every madrasah hears: what about school?

The choice families face

Deen or school. Most families cannot find both under one roof, so they pick one and worry about the other.

The hifdh gap

Children start hifdh at nine, ten or eleven and academics stop. Parents either accept the gap or pull the child out before the Quran is complete.

The school you do not want to run

Curriculum, teachers, marking, report cards, records, payroll and liability. A full academic school is a second institution.

WHAT THE GAP COSTS

Every year without an answer, families quietly make the decision for you.

None of this shows up in your budget. It shows up in who is no longer in the building.

Families leave for full time Islamic schools elsewhere

They wanted to stay with you. They needed a curriculum.

Hifdh students return to public school and lose the routine

The memorization holds only as long as the environment does.

Homeschooling parents carry the academic load alone

They stay connected to the masjid but do the teaching, marking and reporting themselves.

Your institution stays a part time option

Instead of the centre of the family's education.

TGA runs the academics. You keep everything that makes you a madrasah.

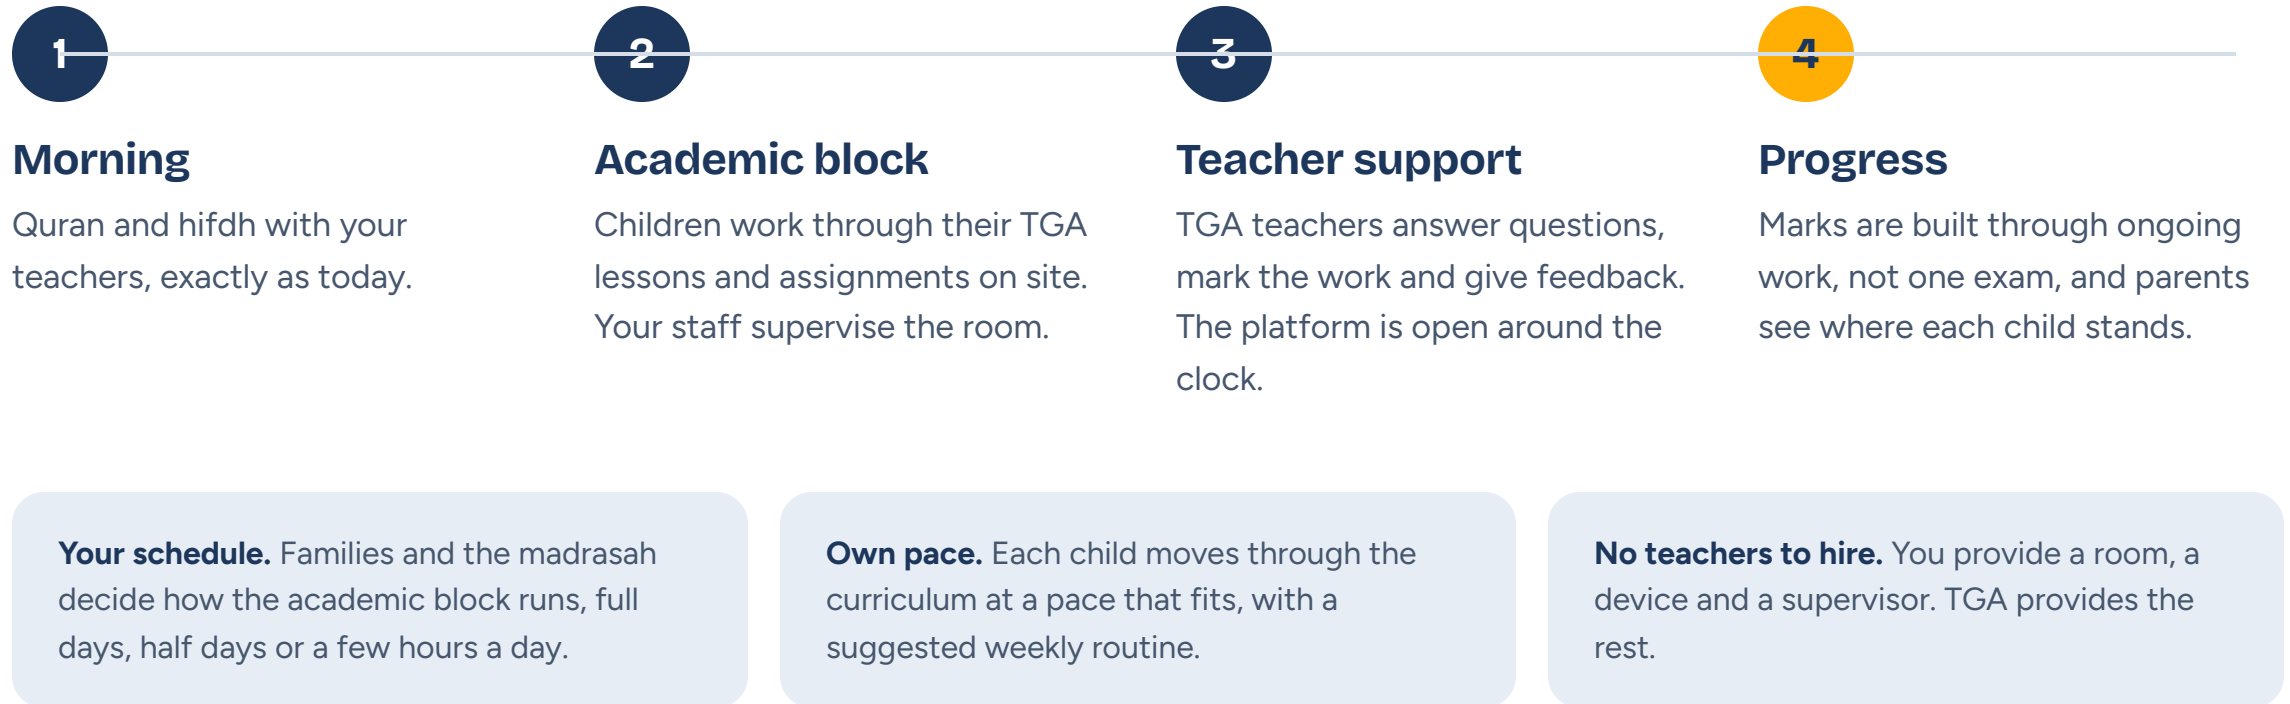

YOU KEEP

- ✓ Your Quran and hifdh program
- ✓ Your building and your schedule
- ✓ The relationship with parents
- ✓ The Islamic environment, all day
- ✓ Supervision in the room

TGA CARRIES

- ✓ Full Ontario curriculum, Grades 1 to 8
- ✓ Lessons and assignments on the TGA platform
- ✓ Teacher support and marking
- ✓ Ongoing progress marks and reporting
- ✓ Placement and a weekly study routine per child

Same building, same students, same supervision. TGA runs the academic block.

WHAT STUDENTS GET

The full Ontario curriculum, Grade 1 to Grade 8, with a teacher behind it.

Every grade, every subject

A full Canadian curriculum for Grades 1 to 8, built on the Ontario program.

A platform open all day

Lessons, assignments and teacher support on TGA's learning platform, available around the clock.

Marks built through progress

A balanced assessment model. A child's mark grows from ongoing work, not a single test.

Placement and routine

A readiness review for each child's grade and a suggested weekly study routine built around their schedule.

WHY TORONTO GLOBAL ACADEMY

Built for families who learn outside a classroom, with a real high school behind it.

Ontario curriculum

Grades 1 to 8

Grade 9 to 12 credits

Mississauga, Ontario

Curriculum integrity

Lessons follow the Ontario program, in a defined sequence, grade by grade.

Teacher supported, not left alone

Children work independently, and a TGA teacher is there to answer, mark and guide.

Tools for parents

Free readiness checks, homeschooling fit guidance and study routines, so families know what to expect.

Flexibility with accountability

A pace that works for each family, with progress that is tracked and reported.

WHO THIS SERVES

Four groups already in your community.

Hifdh students

Keep academics moving through the memorization years so nothing has to be repeated later.

Full time madrasah students

Grade 1 to 8 children who spend the day with you and need their schooling covered.

Homeschooling families

Parents in your congregation who want certified teaching and reporting behind what they do at home.

Children who need their own pace

Students who are ahead, behind or in between, and do better outside a fixed classroom.

AFTER GRADE 8

The same school carries them from Grade 1 to an Ontario diploma.

A child who finishes Grade 8 with TGA moves into TGA's high school credit program without changing platform, records or school.

GRADES 1 TO 8

Ontario curriculum on the TGA platform

Inside your madrasah, at the child's pace, with teacher support.

GRADES 9 TO 12

Ministry inspected high school credits

Toronto Global Academy is an Ontario Ministry of Education inspected private school, BSID 884434.

GRADUATION

Ontario Secondary School Diploma

The same diploma any Ontario high school grants, with the Quran completed alongside it.

FLEXIBLE PRICING FOR GROUPS

The more students you enrol, the less each one costs.

Pricing is per student, one time. Your whole institution is priced at its tier, so a growing madrasah moves down the table as it grows.

A one time onboarding fee for on site setup, supervisor training and the parent orientation is quoted separately by your partner.

STUDENTS ENROLLED	PRICE PER STUDENT	TIER
1 to 10	\$1,000	Starter
11 to 25	\$1,000	Group
26 to 50	\$950	Institution
51 to 200	\$850	Most madaris
201 and above	\$800	Network

PAYMENT OPTIONS

Pay the way your institution budgets.

In full at enrolment

One invoice, settled once. The simplest option for institutions that collect fees up front.

Two instalments

Half at enrolment and half mid year. Matches how most families pay the madrasah.

Yearly billing

For institutions that re-enrol each year. One invoice per school year, on your calendar.

TGA invoices your institution directly. Group pricing applies to every student you enrol, and the tier is set by your total enrolment.

From first conversation to first report card.

1

Site visit

We meet your leadership, see the space and walk through the program with your team.

2

Enrolment and placement

You share the student list. TGA reviews each child's readiness and places them in the right grade.

3

Onboarding

Platform setup, supervisor orientation and a parent session, delivered on site by your partner.

4

Launch

Children start on the platform with a weekly routine, and parents see progress as marks build.

Let's talk about your students.

A short meeting at your masjid is enough to see whether this fits. Bring your student numbers and your questions.
