

Referral Partnership Proposal

Submitted to TGA by Mirza-Zain Baig, acting as Referral Partner.

Draft for discussion. September 2026.

1. Purpose

There is a large number of Islamic and Quranic schools across the Greater Toronto Area that I know personally, or that a partner of mine knows personally, where I can communicate directly and where trust is already built. Most of these schools have no academic solution in place. They do not want to build and run a fully fledged academic school themselves. What they want is an academic program they can offset to a provider while they keep their focus on Quran and Islamic studies.

TGA provides that program. This proposal sets out how I would bring these schools to TGA as a Referral Partner, what I would take responsibility for, and the commercial terms I am proposing.

2. Scope of My Role

I would be the relationship owner for every school I bring to TGA. In practice this covers the full cycle from first contact to a running account.

Marketing. I would market TGA's program to the schools in my network and in my partner's network, using material approved by TGA and presenting the program accurately.

In-person visits. I would visit each school in person, meet the administration, walk them through the program, and bring them to the point of signing. These are relationships that are built face to face, not over email.

Full onboarding. I would handle the onboarding of each school end to end, collecting the student list and enrolment details, setting up the school with TGA, coordinating the start date, and making sure the school's staff and parents understand how the program works.

Point of contact. Once a school is live, day to day questions from the school's administration come to me first. I escalate to TGA anything that requires TGA to act.

Responsibility for the file. I keep each school's enrolment numbers current with TGA, make sure the school knows which pricing tier it sits in, support re-enrolments, and flag early any risk that a school may reduce numbers or leave.

TGA remains responsible for the delivery of the academic program, the platform, the teachers, the curriculum, student records, and the invoicing of the school at the agreed price.

3. Pricing and Referral Fees for Schools

All prices and fees below are one time amounts, per student. The tier a school sits in is determined by the total number of students the school has enrolled with TGA at the time the invoice is issued, including any students added after the initial enrolment. The whole school is priced at its tier, the pricing is not marginal.

Tier	Students enrolled at the school	Price to the school (per student, one time)	My referral fee (per student, one time)	Net to TGA (per student, one time)
1	1 to 10	\$1,000	\$50	\$950
2	11 to 25	\$1,000	\$125	\$875
3	26 to 50	\$950	\$200	\$750
4	51 to 200	\$850	\$250	\$600
5	201 and above	\$800	\$300	\$500

The listed price is the price the school pays. I would not sell above or below the listed price for the applicable tier without TGA's written agreement.

The referral fee is earned once per enrolled student, on the amount the school has actually paid to TGA for that student. A student who re-enrols for a later period is treated as a new enrolment and carries the same price and referral fee.

As a worked example, a school enrolling 30 students sits in Tier 3. TGA invoices the school \$28,500. I receive \$6,000. TGA retains \$22,500.

4. Setup Fee

For the in-person visits and the onboarding work described in section 2, I would charge each school a one time setup fee. This fee is set by me, invoiced by me directly to the school, and collected by me. TGA is not a party to that fee and takes no share of it.

I am recording this here for full transparency. I would make clear to each school, in writing, that the setup fee is my own fee for onboarding and is separate from TGA's per student price.

5. Homeschool Referrals

I also have many contacts among homeschooling families across Ontario. For these families I am proposing flat terms that do not change with volume.

The family is charged \$1,000 per student, one time. I receive a referral fee of \$50 per student, one time. There is no ceiling on the number of students and no tier change at any volume.

Homeschool referrals would be tracked through a referral code assigned to me and entered by the family on the TGA website at signup. Every enrolment carrying my code is credited to me. For homeschool families my role is the introduction and the code, TGA handles those families directly.

6. Payment of Referral Fees

TGA invoices each school and each homeschool family directly. My referral fee is earned only on invoices the school or family has actually paid to TGA. No fee is payable on an invoice that is unpaid, refunded, or waived.

TGA pays my referral fee within fifteen days of the end of the month in which TGA received the school's payment. Where a school pays its per student fee in full, my full referral fee on those students is paid in that cycle.

Where a school pays yearly or bi-annually, meaning the per student fee is settled in one annual payment or in two half payments, my referral fee follows the same split. On an annual payment the full fee is paid in the cycle after TGA receives it. On bi-annual payments, half of my fee is paid in the cycle after TGA receives the first instalment and the other half in the cycle after TGA receives the second. If a school withdraws students and TGA refunds part of a paid invoice, the fee on the refunded portion is deducted from my next payment.

Each payment comes with a statement listing every school and every homeschool student credited to me, the tier applied, the invoices paid, and the fee calculated. I invoice TGA for the amount shown on the statement and I am responsible for my own taxes, including HST where applicable.

7. Conduct and Standards

I would represent TGA accurately and would not make promises about the program, the curriculum, results, or accreditation beyond what TGA has provided in writing. Any marketing material carrying the TGA name would be approved by TGA before use.

I would keep confidential all information about TGA's pricing, students, schools, and operations, and would not share it beyond what is needed to serve the schools in my portfolio.

I would not offer any inducement, discount, or side arrangement to a school or family that is not written into this agreement.

8. Reporting

I would provide TGA with a short monthly update on my pipeline, listing schools in discussion, expected student numbers, and expected start dates. TGA would provide me with the fee statement described in section 6 and access to enrolment figures for the schools in my portfolio.

9. Next Steps

If these terms are acceptable in principle, I propose a short call to confirm the open points, after which the formal referral agreement can be prepared for signature.

Points to confirm before the formal agreement is drafted: the referral code to be assigned to me, the onboarding process and materials TGA will provide, the target list of schools for the first ninety days, and the launch date.

Submitted by Mirza-Zain Baig, Referral Partner. This document is a draft proposal for discussion and does not create a binding agreement. Terms are subject to the formal referral agreement to be signed by both parties.
